

Raeburn Success Story

Monty Grover - Contracts Engineer currently working for AMEC in Perth, Australia

Monty Grover came to Raeburn following his graduation in International Commercial Law from The Robert Gordon University. Monty had registered with a number of recruitment agencies and was looking to begin his professional career.

At Raeburn, Monty was assigned a dedicated Recruitment Consultant to help him with his job searching. Although he had qualified as a lawyer his consultant took an open minded approach and, after listening to his personal aspirations, looked at a range of opportunities available to Monty. He was delighted when Raeburn found him a job as a Cost/Contracts Analyst with a leading energy company.

Monty stayed in that role for a number of years and, when he decided it was time to move on, he came back to Raeburn. Following his success last time, Monty was sure that Raeburn was the agency to help him to further his career.

Raeburn came through for Monty again and he has recently secured employment as a Contracts Engineer with AMEC working in Perth, Australia!

Monty says, "My journey from Aberdeen to Australia could not have been possible without Raeburn. Out of all the Recruitment Agencies, Raeburn was the only one who believed in my ability and skills - they stood with me in my struggling period. Thanks to Raeburn, who gave me a platform in Aberdeen, I'm now successfully working in Australia with AMEC as a Contracts Engineer.

At last, I would like to add, Raeburn is not one of the best, but it is the best agency which will shape your career in the right way"
